Dear US Department of Justice,

As we all know, our economy is suffering and we are now in a recession. If the case against Microsoft is resolved soon, I think our American public will gain the confidence it needs to begin investing in our great economy again.

Because Microsoft has brought so much to this world in software technology, they should be applauded and not obnoxiously criticized for their efforts. Sure, they should operate accordingly and be punished accordingly, but enough is enough. Let's get on with it and start this economy rolling again.

AMM
